snazaroo™

The world's favourite face and body paint

This scary spider design is perfect for little terrors.

1 Using a brush and Black paint, create a spider web on the right cheek. Do this by crossing three straight lines to create a star shape and then linking each of the lines with two curved lines in each segment.

2 Using Black paint and a brush, draw a spider on the left cheek. Use a circle as the body and a smaller circle for the head. Add four legs to either side of the body and two antennae to the top of the head. With Bright Red paint, draw a stripe along each leg and the antennae.

3 For the finishing touch, add silver paint to the web.
